TRANSFORM YOUR HOUSE INTO A TREE... **BY PAINTING!**

Your house can generate healthier ambients for you and your family, contribute to clean the air in cities, and combat global warming. Make it happen, let your house absorb as much CO₂ as an adult tree by using Graphenstone paints.

Transform your home into a tree!

The method is very simple. **Three 15 litre pots of our paint absorbs more than 10Kg of CO₂**, the same amount as an adult tree weighing 250kg in one year.

**THREE 15
LITRE
POTS
ABSORBS
MORE
THAN 10KG
OF CO₂
PER YEAR**

UNIQUE PROPERTIES:

HIGH QUALITY
LIME BASE

SUSTAINABLE
PRODUCT

QUALITY AND
CERTIFICATION

WITH GRAPHENE
FIBRES

UNIQUE IN THE
WORLD

MINIMUM CARBON
FOOTPRINT

PURIFIES THE
ENVIROMENT

REMOVE CO2 OF THE
ENVIRONMENT

ENVIRONMENTALLY
FRIENDLY

WHY IT'S IMPORTANT TO REDUCE CO₂?

The high concentrations of CO₂ in the world increases the greenhouse effect that is contributing to a rise of the temperature on Earth. In addition, the air pollution in cities is causing serious concern for the health of those living there. Our products can help improve the quality of the world's air.

HOW DOES OUR PAINT ABSORB CO₂?

It is possible thanks to the raw materials. We have remade a paint that already existed and has been used for hundreds of years: **a natural lime based paint**. It absorbs CO₂ during its carbonation process which helps reduce the CO₂ in the air, it is a **highly breathable paint**, it has natural antibacterial and insect repellent properties.

It is a material found in the nature and can help us to transform our home into an eco-friendly place. But that is not all, we have improved the paint by adding Graphene fibres that optimize its properties and gives it durability.

"A 100% NATURAL PRODUCT"

THE TARGET:

REMOVING 14,000 TONES OF CO₂

To achieve this we need your help. We want to paint 300 million square meters, starting with your house walls, and we are not stopping there...

Imagine if every wall in your building was painted with Graphenstone: the corridors, the stairs...the air you breathe would be healthier and you would have a better home.

Your building would be a garden!

Furthermore, we want to tell the city councils, if public facilities were restored with our paint we could transform **your city into a forest**. It could be achieved simply with paint. We want to obtain the same effect as 1,000,000 trees, then a greener and more sustainable world would be possible!

**HELP US TO OBTAIN
THE SAME EFFECT AS
1,000,000 TREES.**

Join the project My home is a tree, My building is a garden,
My town is a forest!
